Speed Golf Royale

Hit the ball and run!

Golf is a race. Tee off with 19 other players at once, sprint to your ball and get it in the hole first. Every stroke adds a second to your time, so a fast 6 can beat a slow 4. Golf carts, cannons, saw traps and power-ups keep it chaotic. No waiting your turn. No pay-to-win.

Fact sheet

Developer	Mainframe Games
Based in	New Zealand
Release	Full release 2027. Free demo available now on Steam.
Platforms	Windows, macOS and Linux (Steam)
Price	USD $10 (planned)
Genre	Arcade sports, multiplayer party
Players	1 to 20 online or LAN. Bots fill empty slots.
Engine	Godot 4 (C#)
Website	speedgolfroyale.com
Press contact	mainframegamez@gmail.com

Features

- Up to 20 golfers play the same hole at the same time. Nobody waits for a turn.
- Your score is strokes plus seconds, so speed matters as much as accuracy.
- A simple hit meter instead of fiddly swing controls: aim, power, accuracy, go.
- Golf carts, cannons, saw traps, wind tunnels and floating fairways.
- Power-ups: speed boost, jump boost, teleport and the perfect shot.
- Ragdoll golfers that tumble when a cart or a cannonball finds them.
- Bots fill empty slots, so you can play solo, online or over LAN.
- Cosmetics only. No pay-to-win.
- Courses in the current build: Puddle Pines, Blizzard Basin, Misty Loch Links, Midnight Canyon, Death Bridge, Floaty Fairways, Hurry Up Hill, Wind Tunnel Run, Hollow Hop, Ace Academy Links.

History

Speed Golf Royale takes its scoring from speed golf, the real sport where your score is strokes plus time, and puts a whole lobby on the same hole at once.

Mainframe Games is a two-person studio in New Zealand. The Steam page opened in March 2023, and the game has been built in the open since, with players testing builds through the Discord.

The free demo is on Steam now. The full game is planned for 2027.

Team

Brogan King

Programming and networking

Programmer since 2016 at RocketWerkz, Flightless and Blackout Games. Shipped Blackout Rugby and Monster Racing League on Steam and worked on Stationeers.

Gareth Wilson

Game design, art, levels, sound

Independent developer since 2017, covering characters, environments, animation, level design and audio.
